subject: Product Update – Transformers

Dear Valued Customer,

Aqua-Quip is pleased to announce the release of a new model of Plug-in Transformer. This new model is easier to install as it comes with external quick-fit connectors.

Each model is being phased in over the next six months or so, with the new model APL 511N being the first one released.

Information is provided below as to the old model and the new corresponding model codes.

Model being phased OUT	Model being phased IN
 <p>Model: APL 511 Description: Single Output Transformer Output: 1 x 12v 30va</p>	 <p>Model: APL 511N Description: Single Output Transformer Output: 1 x 12v 30va Runs: One Light only</p>
 <p>Model: APL 512 Description: Dual Output Transformer Output: 2 x 12v 50va</p>	 <p>Model: APL 512N Description: Dual Output Transformer Output: 2 x 12v 30va Runs: Up to two Lights</p>
 <p>Model: APL 514 Description: Quad Output Transformer Output: 4 x 12v 50va</p>	 <p>Model: APL 514N Description: Quad Output Transformer Output: 4 x 12v 30va Runs: Up to four lights</p>
