Warning - Important Information

1. Installer must have an understanding of the current Australian Standard AS 1926.3.2010 prior to installation. Incorrect installation of safety suction covers can lead to suction entrapment. Carefully follow the installation instructions provided.
2. All suction cover outlets have been tested in accordance to the AS 1926.3.2010 and meet the acceptance criteria.
3. Test data has been permanently marked on each suction cover backing.
4. All suction cover outlets must be fixed to the pool wall to prevent removal without the use of tools (as per AS 1926.3.2010).
5. It is the responsibility of the installer to ensure that the maximum allowable flow rates that are displayed above and on the suction cover outlets backings are not exceeded.
